

Ocean Christmas Mini Envelopes

Cut out, fold and glue. Print at 100% (actual size) on A4. Full steps on page 2.

— Cut - - - - - Fold

How to make your envelopes

Five easy steps. A grown-up should help with the scissors and glue.

1

Print

Print page 1 at 100% (actual size) on A4. Thicker paper or light card works best.

2

Cut

Cut around the solid outer line of each envelope.

3

Fold

Fold every dashed line away from you, so the pretty picture stays on the front. Press each fold flat.

4

Glue

Fold both side flaps back. Dab glue on the orange spots (the side flaps, near the bottom), then fold the bottom flap back onto them and press.

5

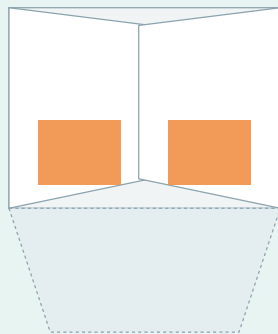

Close

Slide a tiny note in from the top. Fold the top flap down over the back and seal it with a sticker.

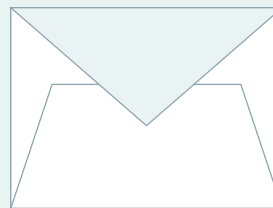

What it looks like when folded

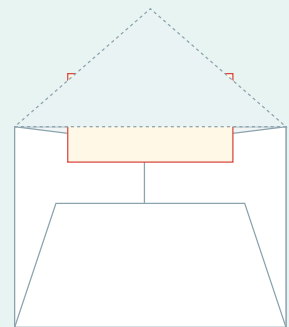

1. Front (picture)

2. Back: glue here

3. Back: closed

4. Note goes in top

Glue only the orange spots. Never glue the front panel or the top flap, so the pocket stays open.

Ideas for your mini envelopes

- Write a Christmas wish or a kind note for a friend.
- Hide one small card or sticker inside for each day of an ocean countdown.
- Hang them on string with tiny pegs, like the picture on our Christmas crafts page.
- Colour the white backs with pens or add stickers. Notes up to 4 x 2.8 cm fit inside.

Safety: adult help recommended for cutting and gluing. Small items are not suitable for children under 3. Free for personal use.
